

lindex™

concentrated shirt detergent

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

lindex is a premium powdered laundry detergent designed specifically for shirt laundries. It's formulated to deliver outstanding performance on white and mixed colored shirt loads.

FEATURES

- A powerful blend of nonionic and lipophilic surfactants, buffered alkalis, water softeners, soil suspending agents, optical brighteners and an oxygen bleach.
- Unique blend of emulsifiers affects release of sweat and body oils from shirts constructed from cotton, poly-cotton and all synthetic fabrics.
- Peroxygen compound present affects bleaching of food and other stains while not 'touching' dyes in colored shirts.
- Performance and rinsability unaffected by water hardness.
- Water conditioning agents and optical brighteners keep shirts bright and white wash after wash.

DIRECTIONS FOR GENERAL USE

For commercial loads typical use levels are 8 to 16 oz. Lindex per 50 lb. load. To optimize use levels for your specific needs contact your Santec technical representative.

OPTIMAL APPLICATIONS

Commercial shirt laundries, health care facilities, hotels, motels and nursing homes.
