

# express™

alkali builder

**st**  
santec®  
clean needs.met.™

**linden series** combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

**express** is a powdered laundry builder combining silicated alkalis with water conditioners enhancing the cleaning power of detergents by providing deep cleaning action on soiled loads. It is especially effective in shirt laundry, table linen and industrial linen applications.

## FEATURES

- Excellent laundry booster tailored for shirt laundry, table linen and industrial linen applications.
- High level of silicated alkalinity enhances and accelerates the cleaning process especially of oils and greases on textiles by emulsifying and removal of soils trapped in linen.
- Uniquely effective on petroleum and organic based oils embedded in a wide range of polyester spun textiles found in the marketplace.
- Economical and environmentally friendly by reducing levels of laundry detergent necessary in cleaning process.
- Prevents fabric graying with powerful soil suspending functionality built into product.

## IDEAL FOR

Your Santec technical representative will design the most economical and effective formulation to fit your specific needs.

## OPTIMAL APPLICATIONS

Commercial laundries, hotels, motels, health care facilities, nursing homes, restaurants, food plants and meat plants.
