# hydro™

powdered carbon destainer

**linden series** | clean, soft, fresh textile care

**hydro** is a super concentrated powdered oxygen-based laundry destainer. Hydro may be used on all washable fabrics including colorfast goods. It is recommended for use in large industrial and institutional laundries and especially for continuous batch type washers. Hydro gives whiter whites and brighter colors while prolonging the life of textiles. Eliminating chlorine bleach from the wash formula reduces linting and reduces loss of tensile strength. Hydro stops chlorine retention and eliminates the need for anti-color.

## directions for use

Hydro is for industrial use only. It should be used in a wash formula specifically designed to meet the needs of your facility. Consult your Santec technical representative for specific use directions.

### WARNING

#### HAZARD STATEMENTS

Rick of serious damage to eyes. Harmful if swallowed.

#### PRECAUTIONARY STATEMENTS

Wear protective gloves, splash goggles, face shield, full suit, vapor respirator and boots. Do not breathe mist/vapors/ spray. Wash thoroughly after handling.

#### FIRST AID
