

power[™]
concentrated laundry detergent

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

power is powerful chlorine based bleach that enhances the performance of laundry detergents, eliminates most protein stains and aids in the removal of a broad spectrum of common food based stains. It also whitens and brightens the fabric.

NOTE

- Read care labels on fabric before using. In general, use on white fabric only; don't use on colored fabric unless care label specifically states it's compatible with chlorine bleach.
- Do not use on wool, silk and nylon fabrics.

FEATURES

- Extremely effective at removing many of the most difficult stains at relatively low temperature.
- Visibly improves brightness and whiteness especially on textiles that have grayed and yellowed with repeated laundering with Power.
- Freshens fabric as it is an effective odor eliminator.
- Can be used as a pre-soak by immersing heavily stained garments in a container prepared by adding one ounce to one gallon of cool water - for approx. 5 min.
- Very economical as it contains 12% available chlorine.

IDEAL FOR

Commercial laundries, hotels, motels, health care facilities, nursing homes, and other on-premise laundries.

PRODUCT SPECIFICATIONS

Physical Description	Clear, slightly yellow liquid
Viscosity	Water thin
Color	Slightly yellow
Flashpoint	None
Fragrance	Chlorine
Weight per Gallon	9.9 lb / gal
pH (1%)	10.2 - 10.3
Storage Stability	3 - 6 months when stored in cool place not exposed to light.
D.O.T. Shipping label	Corrosive liquid
