

seventeen

encapsulated machine
dish detergent

resolve series represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

seventeen is a premium phosphate free dish detergent solid in a capsule. It is formulated as a heavy duty combination of alkaline builders, organic polymeric compounds that effectively complex hardness ions, soil suspending polyacrylates, non-foaming detergents.

FEATURES

- A versatile product that cuts and removes dried-on foods, grease, oil and other food soils on glassware, china, plastic, cutlery, and pots and pans. Do not use aluminum, zinc and other soft metals.
- Generates no foam that can interfere with accuracy of dishwasher's operation.
- Organic polymer blends that effectively condition and soften water in place of the environmentally problematic and popular phosphates.
- Contains a special polymer that decreases precipitation and adherence of inorganic salts to glass surfaces thereby eliminating 'spotting' of glassware.
- Performance and rinsability are unaffected by water hardness. Contains water softeners that reduce formation and build-up of scale and scum in jet sprays and other surfaces of dishwashing machines.

OPTIMAL APPLICATIONS

Restaurants, cafeterias, schools, hospitals, kitchens, hotels, motels, nursing homes and other food service establishments.

IDEAL FOR

Glassware, steel cutlery, pots and pans, porcelain and plastics.

PRODUCT SPECIFICATIONS

Physical Description	Solid capsule
Color	White
Odor	Bland
pH (1%)	12.5 - 13.0
Density	84 lbs./ft ³
Flashpoint	None
Storage Stability	1 year minimum
D.O.T. Shipping label	Not regulated (due to pack size)
