

substance™

concentrated water conditioner

linden series combines high-performance with formulations that preserve the soft feel and fresh scent to all fabrics. High tech solutions to common spot and stain problems allow you to get the most use possible from your linens and fabrics.

substance is a concentrated water conditioner for commercial and institutional laundry applications. It contains reagents that remove hardness ions, tie up dissolved iron and remove iron deposits, and reduces soil and hardness redeposition on textiles.

FEATURES

- Effectively removes hardness ions from laundry wash water allowing reduced detergent levels to perform better.
- Chelating agents remove iron deposits and bind dissolved iron, dramatically improving detergency in iron-prone laundries.
- Laundered textiles appear whiter and brighter due to prevention of redeposition in hard water conditions.
- Prevents hard water scale build up on laundry equipment.

OPTIMAL APPLICATIONS

Commercial laundries, hotels, motels, health care facilities, nursing homes and restaurants.

green cove™

BIODEGRADABLE, NON-TOXIC, PHOSPHOROUS FREE
