# twenty nine

conveyor lube +  
burnishing compound

lubricante del transportador

resolve series | high-performance food service solutions

**twenty nine** is a dual purpose product. As a conveyor lube it's a concentrated chain lubricant suited for conveyors in all food and beverage processing plants. As a burnishing compound it's very effective in cleaning and burnishing a wide variety of metals while offering some corrosion protection; because of its mild nature it's ideally suited for fine silverware in commercial kitchens.

## directions for use

**CONVEYOR LUBE APPLICATION:** Apply liberally to gears, chains, guides and other areas on conveyor where lubrication is needed. For routine lubrication can apply in dilutions of 75:1 to 150:1 through a dispensing system. Your Santec rep will help you determine the most economical concentration for your system.

**BURNISHING APPLICATION:** Different burnisher machines will require different dilution concentrations. A generally recommended usage rate is 1-2 oz. per gallon of water.

### WARNING

#### HAZARD STATEMENTS

May cause eye or skin irritation.

#### PRECAUTIONARY STATEMENTS

Wear protective gloves and eye protection.  
Wash thoroughly after handling.

#### FIRST AID

Eye Contact: Check for and remove any contact lenses. Flush with large quantities of water, holding eyelids open for 15 minutes. Seek medical attention if symptoms persist.  
Skin Contact: Wash skin with copious amount of water. Seek medical attention if symptoms persist. Inhalation: Remove to fresh air. Seek medical attention if symptoms persist. Ingestion: Do not induce vomiting. Drink copious amounts of water. Seek medical attention immediately.

### STORAGE

Store in original container protected from sunlight in a well ventilated area, away from incompatible materials, food and drink. Keep out of reach of children.

### SPILL /LEAK

Put on appropriate personal protective equipment. Move container from spill area. Dilute with water and mop up if water soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

### DISPOSAL

Dispose of material in accordance with local, state and federal regulations.

### HAZARDOUS INGREDIENTS

Tall Oil Fatty Acid (61790-12-3)  
Cocamine Oxide (68155-09-9)  
Triethanolamine (102-71-6)
