

twenty seven

machine rinse additive | HW

resolve series represents a complete kitchen solution. Simple, numerically named, effective dish detergents, degreasers and sanitizers for both manual and automatic cleanup keep your food preparation areas sparkling with minimal effort.

Twenty Seven is a concentrated rinse additive designed to perform well even in hard water conditions. It is formulated with a blend of surfactants, combined with a foam suppressant to eliminate spotting and enhance flash drying of dishes. Foam levels in water are minimized to guarantee maximum cleaning power of dishwasher.

features

- Surfactant blend package with active foam suppressant provides dishes and glassware free of all spots.
- Contains organic acid to assist in promoting spot-free drying even in hard water.
- As a concentrate that performs well even in high TDS and hardness conditions it is a very cost effective product.
- Product is colored blue to allow visual control in injector.

optimal applications

For use in all types of automatic dishwashing equipment. Can be used in cafeterias, schools, hospitals, nursing homes and restaurants.
